Campbell Road, Bangalore, 12th June 1917.

To

The Private Secretary to His

Highness the Maharaja of Mysore.

Sir,

The proverbially keen and intense interest, that is evinced by His Highness' Government in all matters, towards the progress of civilization, emboldens me to submit this communication to you with the hope, that it will be found useful and interesting.

It is well known that, Ozonised Air and Ozonised drinking water, positively prevents Epidemics of various kinds, such as, Cholera, Plague, Enteric &c.

Hygienic and Medical circles are following with interest the increasing importance which ozone has attained, in consequence --of its highly sterilising properties in connection with the purification of infected drinking water.

The advantage which the Ozone process, has over all existing filtering processes of causing a practically complete sterilisation by the total destruction of all diseased germs, is of the - greatest value in fighting epidemic and endemic diseases, produced by the consumption of infected drinking waters.

The disinfection and sterilisation of water, constitute one of the most remarkable properties of Ozone, and, it has been proved beyond doubt that the most impure and infected water, can be -- rendered perfectly fit, healthy and pleasant for drinking, by the use of this Agent.

Electricity produces Ozone, and, as the former is available in Mysore, Bangalore and Kolar Gold Fields it can be very use-fully

usefully employed, its efficacy will very soon manifest itself in saving many lives.

The citizens in the Mysore State, look to His Highness' Government for help, during the outbreak of cholera, plague Enteric &c.

I have therefore, under the circumstances, seemed it my duty to address you, in order to strength the hands of the-- Government of Mysore.

I shall be very pleased to give any further information and the fullest practical and theoretical details on this subject to His Highness' Government.

Awaiting an early reply.

I beg to remain &c.,
Sd/- E J Lapez.

The Private Secretary to
His Highness
The Maharajah of Mysore
Sir,

The proverbially keen and intense interest that is evinced by His Highness's Government in all matters towards the progress of civilization emboldens me to submit this communication to you with the hope that it will be found useful and interesting.

It is well known that Ozonised Air and Ozonised drinking Water positively prevents Epidemics of various kinds such as Cholera, Plague, Enteric, &c. Hygienic and medical circles have been following with interest the increasing importance which Ozone has attained in consequence of

I have been thinking of you very much lately and wondering how you are getting on. I hope you are well and happy. I have been very busy lately but I will try to write to you more often. I have been thinking of you very much lately and wondering how you are getting on. I hope you are well and happy. I have been very busy lately but I will try to write to you more often.

of its highly attending properties in connection with the purification of infected drinking water. The advantage which the Orove process has over all existing filtering processes of securing a practically complete sterilization by the total destruction of all disease germs is of the greatest value in fighting epidemics and epidemic diseases produced by the contamination of infected drinking waters. The disinfection and sterilization of water, constitutive one of the most remarkable properties of Orove, and it has been proved beyond doubt that the most minute and infected water, can be rendered perfectly fit for healthy and pleasant for drinking by the use of this agent.

Electricity produces Orove, and as the former is available in Mysore, Bangalore and the other good fields it can be very usefully employed, its efficiency will very soon manifest itself in saving many lives.

The citizens in the Mysore State look to the Highways Government for help, being the outbreak of cholera, Plague, Enteric &c I have therefore, under the circumstances seems it my duty to address you in order
